

There are 4 main areas in this project:

### 1-Header

This area contains the application name.

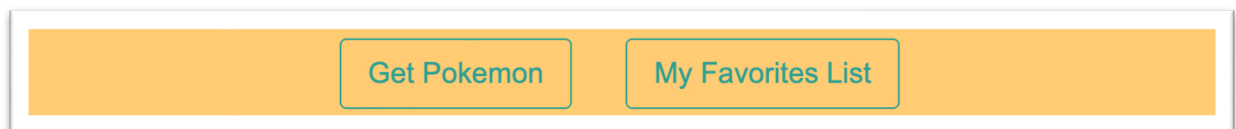

### 2- Navigation

This area contains 2 links for 2 different web pages.

=> "Get Pokemon" link takes you to the page where you will find pokemon.

=> "My Favorites List" link takes you to the page where you will find your favorite pokemon list.

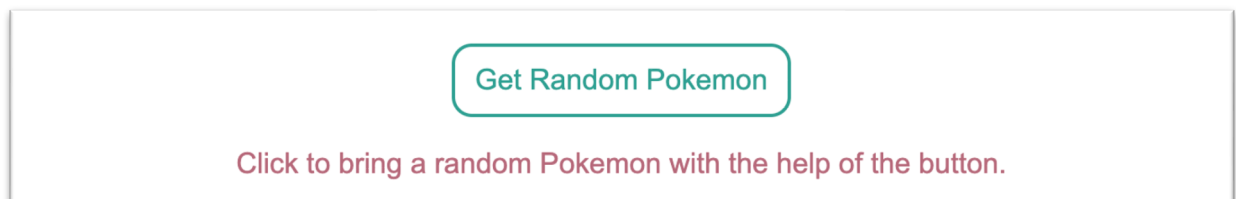

### 3- Main

This area changes according to the selected page.

3.1- If you are on the Get Pokemon page, you will see 2 sections in this area. In the first section, you can find a random pokemon. In the second section, you can find the pokemon name and pokemon information.

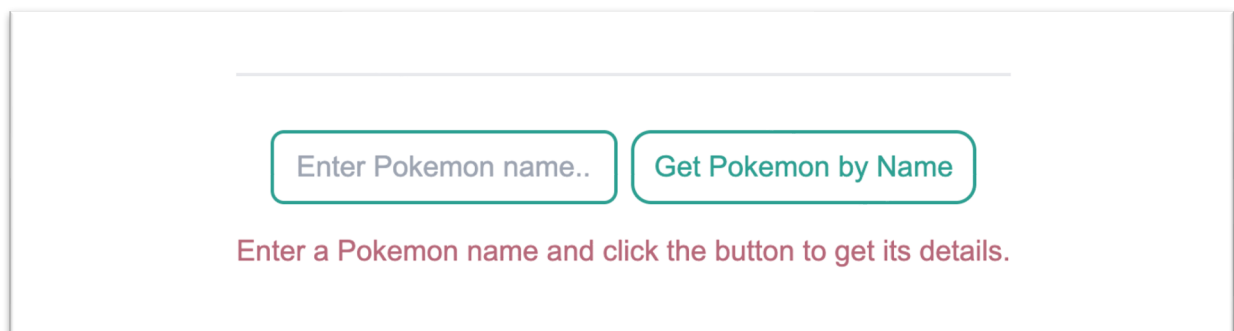

3.1.1- This section has a button and a redirection message by default.

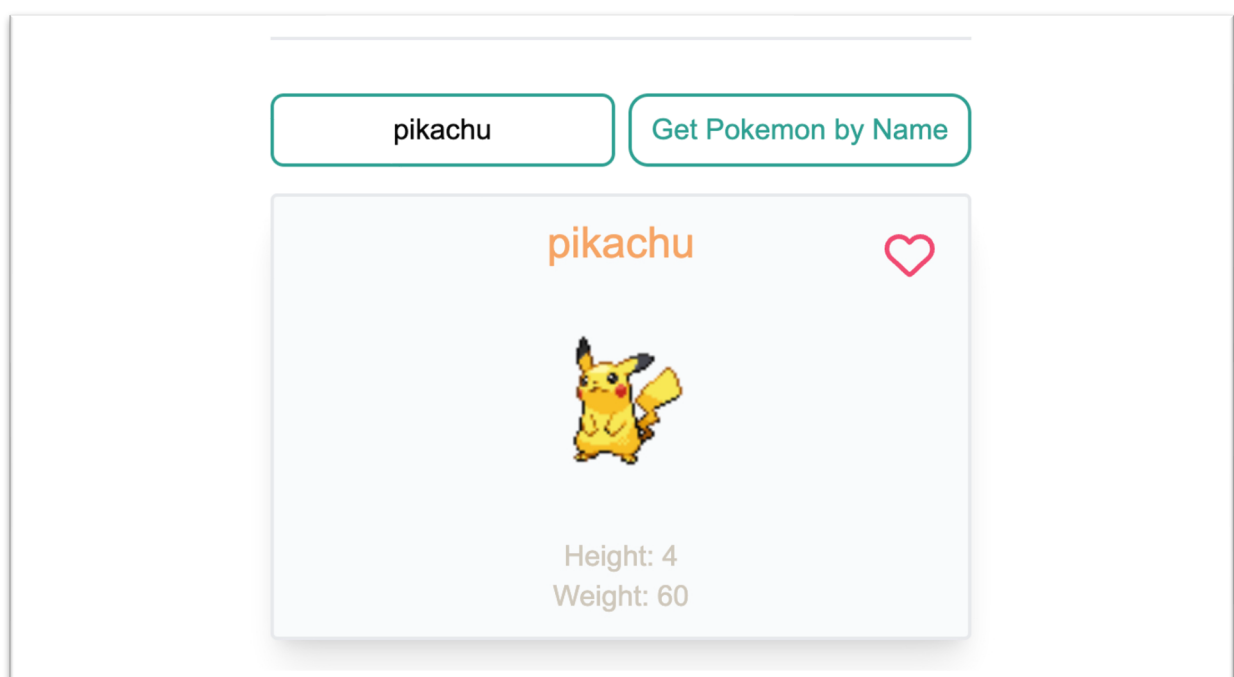

When the button is clicked, the redirection message disappears and a random pokemon card is loaded.

3.1.2- In this section, there is an input field to write the name of the pokemon by default, and a button that fires to find the pokemon. There is also a redirection message.

When the button is clicked, the redirection message is removed and a random pokemon card is loaded.

3.2- If you are on the My Favorites List page, you will see the list of your favorite pokemons that you have selected.
